INDEX TO VOLUME II

AERODYNAMICS

A Note on Subsonic Aerofoil Theory, John W. Miles, p. 23

An Analysis of the Lift on Straight, Yawed and Swept-Back Wings, J. Lockwood Taylor, p. 293

Contracting Ducts of Finite Length, L. G. Whitehead, L. Y. Wu and M. H. L. Waters, p. 254

Note on the Dependence of Flap Hinge Moment Derivatives on Hinge Position, W. J. Duncan, p. 143

Theory of an Oscillating Supersonic Aerofoil, Geoffrey L. Sewell, p. 34

The Correction of Wind Tunnel Nozzles for Two-Dimensional Supersonic Flow, R. E. Meyer and M. Holt, p. 195

The Linearised Theory of Conical Fields in Supersonic Flow, with Applications to Plane Aerofoils, S. Goldstein and G. N. Ward, p. 39

On Non-Steady Motion of Slender Bodies, John W. Miles, p. 183

ANNAND, W. J. D.

General Performance Reduction Equations for Reciprocating-Engined Aircraft with Constant Speed Propellers, p. 111

BLACK, J. and O. P. MEDIRATTA

Supersonic Flow Investigations with a "Hydraulic Analogy" Water Channel, p. 227

CHANG O'CHOU

Two-Dimensional Theory of Stiffened Plates, p. 1

DUNCAN, W. J.

Note on the Dependence of Flap Hinge Moment Derivatives on Hinge Position, p. 143

FLUID MOTION

See also Aerodynamics

Axially-Symmetrical Supersonic Flow Near the Centre of an Expansion, N. H. Johannesen and R. E. Meyer, p. 127

Supersonic Flow Investigations with a "Hydraulic Analogy" Water Channel, J. Black and O. P. Mediratta, p. 227

FLUTTER

See Structures

GOLDSTEIN, S. and G. N. WARD

The Linearised Theory of Conical Fields in Supersonic Flow with Applications to Plane Aerofoils, p. 39

HOLT, M. and R. E. MEYER

The Correction of Wind Tunnel Nozzles for Two-Dimensional Supersonic Flow, p. 195

JOHANNESEN, N. H. and R. E. MEYER

Axially-Symmetrical Supersonic Flow Near the Centre of an Expansion, p. 127

KLITCHIEFF, J. M.

Beams on Elastic Supports and on Cross-Girders, p. 157

KUCHEMANN, D. and J. WEBER

On the Chordwise Lift Distribution at the Centre of Swept Wings, p. 146

MEDIRATTA, O. P. and J. BLACK

Supersonic Flow Investigations with a "Hydraulic Analogy" Water Channel, p. 227

MEYER, R. E. and M. HOLT

The Correction of Wind Tunnel Nozzles for Two-Dimensional Supersonic Flow, p. 195

MEYER, R. E. and N. H. JOHANNESEN

Axially-Symmetrical Supersonic Flow Near the Centre of an Expansion, p. 127

INDEX

MILES, JOHN W.

A Note on Subsonic Aerofoil Theory, p. 23

On Non-Steady Motion of Slender Bodies, p. 183

MORRIS, J.

Whirling of a Spinning Top, p. 9

NEUMARK, S.

Critical Mach Numbers for Swept-Back Wings, p. 85
Correction, p. 226

PEARSON, H.

The Estimation of Range of Jet-Propelled Aircraft, p. 167

PERFORMANCE

General Performance Reduction Equations for Reciprocating-Engined Aircraft with Constant-Speed Propellers, W. J. D. Annand, p. 111

The Estimation of Range of Jet-Propelled Aircraft, H. Pearson, p. 167

The Possibility of the Determination of Rate of Climb from Acceleration Measurements in Level Flight, E. C. Pike, p. 15

PIKE, E. C.

The Possibility of the Determination of Rate of Climb from Acceleration Measurements in Level Flight, p. 15

SEWELL, GEOFFREY L.

Theory of an Oscillating Supersonic Aerofoil, p. 34

STRUCTURES

Beams on Elastic Supports and on Cross-Girders, J. M. Klitchieff, p. 157

Some Developments of Expansion Methods for Solving the Flutter Equations, John Williams, p. 209

The Properties of Crossed Flexure Pivots and the Influence of the Point at which the strips cross, W. H. Wittrick, p. 272

Two-Dimensional Theory of Stiffened Plates, Chang O'Chou, p. 1

Correction:—Amendments to: A Note on the Bending Moment Induced in the Booms of a Spar at the Point of Application of a Concentrated Load, H. F. Winny (Vol. I, Part IV, February 1950, p. 281), p. 155

SWEEPBACK

See also Aerodynamics

On the Chordwise Lift Distribution at the Centre of Swept Wings, D. Küchemann and J. Weber, p. 146

Critical Mach Numbers for Swept-Back Wings, S. Neumark, p. 85
Correction, p. 226

TAYLOR, J. LOCKWOOD

An Analysis of the Lift on Straight, Yawed and Swept-Back Wings, p. 293

TOPS

Whirling of a Spinning Top, J. Morris, p. 9

WARD, G. N. and S. GOLDSTEIN

The Linearised Theory of Conical Fields in Supersonic Flow with Applications to Plane Aerofoils, p. 39

WATERS, M. H. L., L. G. WHITEHEAD and L. Y. WU

Contracting Ducts of Finite Length, p. 254

WEBER, J. and D. KUCHEMANN

On the Chordwise Lift Distribution at the Centre of Swept Wings, p. 146

WHITEHEAD, L. G., L. Y. WU and M. H. L. WATERS

Contracting Ducts of Finite Length, p. 254

WILLIAMS, JOHN

Some Developments of Expansion Methods for Solving the Flutter Equations, p. 209

WIND TUNNELS

See Aerodynamics

WINNY, H. F.

Amendment to: A Note on the Bending Moment Induced in the Booms of a Spar at the Point of Application of a Concentrated Load (Vol. I., Part IV., February 1950, p. 281), p. 155

WITTRICK, W. H.

The Properties of Crossed Flexure Pivots and the Influence of the Point at which the strips cross, p. 272

WU, L. Y., L. G. WHITEHEAD and M. H. L. WATERS

Contracting Ducts of Finite Length, p. 254
